

JANUARY 2008

AMKUS appoints DPC Emergency Equipment for Delaware and Eastern Maryland

AMKUS, Inc. proudly introduces DPC Emergency Equipment as the new Authorized Distributor for Sales and Service in the states of Delaware and Eastern Maryland. The growth and increasing demand for AMKUS Rescue Systems in the North Atlantic region has prompted the need for additional and strategically positioned representation.

“The reputation of DPC in the state of Delaware as well as the Eastern and Western Shores of Maryland is unequalled and well documented. I have known the Strauss’ and their organization for well over ten years and it is an honor to sign them as an AMKUS distributor”.

– Bob Linster

DPC Emergency Equipment has been a family owned and operated company since 1989. DPC reaches deep into the Fire and Rescue Services through their aggressive sales staff and the comprehensive service facility and headquarters based in Marydel, Delaware. Beginning in February 2008, DPC Emergency Equipment will have three (3) fully certified service technicians on staff to perform scheduled routine maintenance or emergency service. Be sure to visit their website at <http://dpcemergency.com> for more information.

In coordination with AMKUS’ emphasis on quality, performance and integrity DPC’s Mission Statement sums it best:

“To assist firefighters protect lives and property by providing the best “One-Stop-Shop” in Delaware and Maryland for complete emergency vehicle sales, certified service and custom fabrication.”

AMKUS is proud to welcome DPC Emergency Equipment to the outstanding dealer network and we wish the entire organization great success and luck in their new endeavor.
