FOR IMMEDIATE RELEASE

MARYDEL, Delaware – February 26, 2010 – The Smithsburg Community Volunteer Fire Company in Washington County, Maryland recently signed a contract to purchase a new Rosenbauer pumper. This is the first Rosenbauer apparatus sold in Washington County and the first Spartan chassis sold by DPC to feature an Evolution front fascia. The Spartan Gladiator chassis will have a 199” wheelbase and feature a Gladiator LFD cab with a 20” raised roof to allow for ample interior headroom.

Rosenbauer’s General Division will fabricate the extruded aluminum body that will feature high side compartments on both sides. Located on each side of the body will be a single-arm, hydraulic equipment rack. The left side rack will hold four (4) sections of 6” hard suction hose while the right side will carry a ladder compliment along with pike poles. Suppression capability will be provided by a Hale QMAX 1500 GPM, Hale FoamLogix 5.0 foam proportioning system, and a CAFS system powered by a Waterous Pneumax 200-SP PTO-driven air compressor kit. The water tank has a capacity of 750 gallons along with an integral 30 gallon foam tank.

An Onan 10kW hydraulic generator will power an FRC Focus brow light and a pair of FRC Optimum tripod lights on the rear of the body along with a Will-Burt light tower. The dunnage area will house a Hannay hose and electric reel. On Scene Solutions LED Night Sticks will illuminate all of the exterior body compartments. Other features include a FireCom 3010 vehicle intercom system with wireless headsets, Whelen LED warning lights, and a Weldon V-MUX multiplexed electrical system.

The truck was sold by Greg Price.

A family owned and operated company, DPC Emergency Equipment has continuously served public safety personnel in Maryland and Delaware for 20 years. DPC is an authorized sales and service dealer for Rosenbauer America, Spartan Motors, Wheeled Coach, and Road Rescue in both Maryland and Delaware.
